The vehicle specification section assists you with better understanding your vehicle's standard and optional equipment, via VIN decode processing. These processes are generally reliable, and providers work to continually improve their decoding. However, different VIN decode processors may show different specifications. If you have questions, please check with your vehicle's manufacturer. Dealers/sellers also report installed option information, which is provided when available.

Junk/Salvage/Total Loss

Source NMVTIS

This section discloses events related to events like junk, salvage and insurance total loss that have been reported to VINData History. Included are state DMV titles that show junk, salvage or similar brands, insurance total loss events and salvage auctions or junk yard disclosures. Events related to an auto dismantler, auto recycler or crush facility indicate that the vehicle has sustained major damage. A vehicle that has been received by a salvage auction or junk yard usually indicates major prior damage, however these entities also remarket undamaged vehicles. We recommend an inspection by a qualified mechanic.

Good news - no junk, salvage or insurance total loss events have been reported to VINData History.

Title Information

Source NMVTIS

This section identifies this vehicle's current and historic DMV titles reported as issued by date, indicating the state and reported mileage. Title brands that have been reported to VINData History are shown in the "Title Brands Reported" section below. Each title record represents a new title holder, duplicate title, lien release or other title event. Odometer readings are generally recorded when a new title is issued. This information reflects the title information on file with NMVTIS. For more information, please contact the state of title. We recommend an inspection by a qualified mechanic.

Title Issued Date	State	Type	Event	Reported Odometer	Source
12/09/2019	Pennsylvania	Current	Title issued JA32U2FUXCU015149	137,763	NMVTIS

1 Recalls

Source VINData History

As shown below, all 2012 MITSUBISHI LANCER vehicles have had one or more recalls issued by NHTSA. Use the NHTSA box below to check for unrepaired/open recalls. If there is an unrepaired/open recall, the vehicle can be repaired by a local MITSUBISHI dealer at no cost to dealers or consumers.

Issued Recall: 18V069000

NHTSA ID:	18V069000
Components:	ENGINE AND ENGINE COOLING:ENGINE:GASOLINE:BELTS AND ASSOCIATED PULLEYS
Consequence of Defect:	If the drive belt detaches, the battery will discharge and the engine will stall, increasing the risk of a crash.
Defect Description:	Mitsubishi Motors North America, Inc. (MMNA) is recalling certain 2009-2012 Lancer, 2008-2012 Outlander, 2010-2012 Lancer Sportback, and 2011-2012 Outlander Sport vehicles equipped with either a 4B11 or 4B12 engine. The drive belt automatic tensioner flange may crack, allowing the accessory drive belt to detach.

The compilation and assembly of VINData™ vehicle history and title reports requires data from multiple third-party data suppliers. Data supplied by NMVTIS or its reporting sources is supplemented with additional various data sources to provide the information contained herein. VINData, a service of VIN Data Products LLC, relies on its data sources for the accuracy and reliability of its information. In addition, VINData, expressly disclaims all warranties, express or implied, including any implied warranties of merchantability or fitness for a particular purpose. © 2020 VIN Data Products LLC. All Rights Reserved. Patent Pending.

Corrective Action:	MMNA will notify owners, and dealers will replace the belt tensioner with one that has an improved shape, free of charge. The recall is expected to begin March 27, 2018. Owners may contact MMNA customer service at 1-888-648-7820. MMNA's number for this recall is SR-18-001.
Manufacturer:	Mitsubishi Motors North America, Inc.
Potential Number of Units Affected:	141053
Notes:	Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov .
Recall Date:	01/26/2018

Warranty

Source Black Book

Original Factory Warranty information is provided to help you determine if a vehicle is still under all or part of the original warranty.

Powertrain Warranty	10 years or 100,000 miles
Roadway assistance Warranty	5 years or Unlimited mil
Bumper to bumper Warranty	5 years or 60,000 miles
Anti-Corrosion Warranty	7 years or 100,000 miles

Other Information

Source VINData History

This section discloses events related open liens, theft, towing and impound, inspections and other important events that have been reported to VINData Products. Certain events, like accidents reported to be severe and active theft events are flagged with a warning. We recommend an inspection by a qualified mechanic.

Good news – no liens, thefts, for sale, impound, towing, accident or inspection events have been reported for this vehicle. These events may affect the safety and value of a vehicle.

NMVTIS Consumer Access Product Disclaimer

The National Motor Vehicle Title Information System (NMVTIS) is an electronic system that contains information on certain automobiles titled in the United States. NMVTIS is intended to serve as a reliable source of title and [brand](#) history for automobiles, but it does not contain detailed information regarding a vehicle's repair history.

All states, insurance companies, and junk and salvage yards are required by federal law to regularly report information to NMVTIS. However, NMVTIS does not contain information on [all](#) motor vehicles in the United States because [some states](#) are not yet providing their vehicle data to the system. Currently, the data provided to NMVTIS by states is provided in a variety of time frames; while some states report and update NMVTIS data in "real-time" (as title transactions occur), other states send updates less frequently, such as once every 24 hours or within a period of days.

Information on previous, significant vehicle damage may not be included in the system if the vehicle was never determined by an insurance company (or other appropriate entity) to be a "total loss" or branded by a state titling agency. Conversely, an insurance carrier may be required to report a "total loss" even if the vehicle's titling-state has not determined the vehicle to be "salvage" or "junk."

A vehicle history report is **NOT** a substitute for an independent vehicle inspection. Before making a decision to purchase a vehicle, consumers are **strongly encouraged to also obtain an independent vehicle inspection** to ensure the vehicle does not have hidden damage. The [Approved NMVTIS Data Providers](#) (look for the NMVTIS logo) can include vehicle condition data from sources other than NMVTIS.

NMVTIS data **INCLUDES** (as available by those entities required to report to the System):

- Information from [participating](#) state motor vehicle titling agencies.
- Information on automobiles, buses, trucks, motorcycles, recreational vehicles, motor homes, and tractors. NMVTIS may not currently include commercial vehicles if those vehicles are not included in a state's primary database for title records (in some states, those vehicles are managed by a separate state agency), although these records may be added at a later time.
- Information on "brands" applied to vehicles provided by participating state motor vehicle titling agencies. Brand types and definitions vary by state, but may provide useful information about the condition or prior use of the vehicle.
- Most recent odometer reading in the state's title record.
- Information from insurance companies, and auto recyclers, including junk and salvage yards, that is required by law to be reported to the system, beginning March 31, 2009. This information will include if the vehicle was determined to be a "total loss" by an insurance carrier.
- Information from junk and salvage yards receiving a "cash for clunker" vehicle traded-in under the Consumer Assistance to Recycle and Save Act of 2009 (CARS) Program.

Consumers are advised to visit www.vehiclehistory.gov for details on how to interpret the information in the system and understand the meaning of various labels applied to vehicles by the participating state motor vehicle titling agencies.

VINData Products Consumer Access Product Disclaimer

The compilation of VINData Products services, VINData Vehicle History and Title Reports and other history and related products, use data from multiple third party data suppliers and other various data sources which may supplement data supplied by NMVTIS or its sources. Sections of this Vehicle History Report are based on NMVTIS data and NMVTIS data sources as indicated. Thus, the above Consumer Access Product Disclaimer applies solely to NMVTIS data and NMVTIS data sources. NMVTIS provides data directly from its databases to VINData Products consumers through the AAMVA tested and approved VINData Products interface on a "read-only" basis. VINData Products does not supply or enter any data into the NMVTIS databases and is not responsible for supplying any data contained in any NMVTIS Vehicle History Report. Therefore, VINData Products cannot warrant or guarantee the accuracy of any information contained in any NMVTIS Vehicle History Report data.

In the event that NMVTIS Vehicle History Report Data shows current and historical states of title, as provided in any NMVTIS Vehicle History Report, VINData Products consumers have several options regarding full vehicle history records from the current and historical states of title. These records, if such records exist, are available for purchase. Please contact customerservice@vindata.com. Should you require more information, please contact the state of current title and the state of historical title as provided on your Report. This information is subject to change from time to time and is accessible here: [AAMVA-state-list](#)
